1. Περιγραφή

Σκοπός της άσκησης αποτελεί η δημιουργία ενός e-shop, το οποίο εμπορεύεται gadgets. Ο τομέας προϊόντων που θα χρησιμοποιήσει ο καθένας επιλέχθηκε από τον πίνακα που δίνεται στο τέλος της εκφώνησης της άσκησης σύμφωνα με το τελευταίο ψηφίο του AM του κάθε φοιτητή. Έτσι, για 03117176, επιλέχθηκε το gadget “Hoverboards”. Το e-shop δημιουργήθηκε χρησιμοποιώντας το open Source εργαλείο magento (<http://www.magentocommerce.com>), το οποίο ήταν ήδη εγκατεστημένο στο VirtualBox image. Συγκεκριμένα, χρησιμοποιήθηκε το αρχείο ebusiness2016-final.ova το οποίο είναι διαθέσιμο στο <https://www.dropbox.com/s/mrp9watfosuv9jn/ebusiness2016-final.ova?dl=0> καθώς και το open Source πρόγραμμα VirtualBox, το οποίο εγκαταστάθηκε από την διεύθυνση <http://www.virtualbox.org/>. Το αρχείο ebusiness2016-final.ova αποτελεί το Virtual Machine. Από το Virtual Box επιλέγοντας Files → Import Appliance... εντοπίζεται το αρχείο αυτό. Όταν τελειώσει η διαδικασία το συγκεκριμένο VM έχει εισαχθεί στο VirtualBox και μπορεί να το ανοιχτεί και να λυθούν οι ασκήσεις. Πριν το άνοιγμα του virtual machine, με δεξί κλικ πάνω του και επιλογή settings συνίσταται η αλλαγή της διαθέσιμης μνήμης RAM σε 512 MB. Ο κωδικός για την είσοδο του χρήστη είναι ebusiness61.

Ανοίγοντας έναν web browser μέσα στο Virtual Machine, αποκτάται πρόσβαση στα αναφερόμενα εργαλεία πηγαίνοντας στις διευθύνσεις <http://localhost/eshop/index.php> (Magento) και <http://localhost:8080/activiti-explorer/> (BPMN2.0 engine ACTIVITI, όνομα χρήστη/κωδικός: kermit/kermit). Για τον ACTIVITI Designer χρησιμοποιείται η εφαρμογή ECLIPSE ενώ τα διαγράμματα που θα δημιουργηθούν, αποθηκεύονται στον φάκελο workspace του ECLIPSE. Το εικονικό μηχάνημα μοιράζεται πρόσβαση στο δίκτυο από τον υπολογιστή σας και είναι εφικτή η αντιγραφή κειμένου από και προς αυτό. Για προχωρημένες λειτουργίες υπάρχει και ο ακόλουθος σύνδεσμος: http://www.virtualbox.org/wiki/User_HOWTOS.

Αφού ολοκληρωθούν οι εργασίες, έχοντας επιλεγμένο το συγκεκριμένο Virtual Machine, επιλέγεται File → Export Appliance....

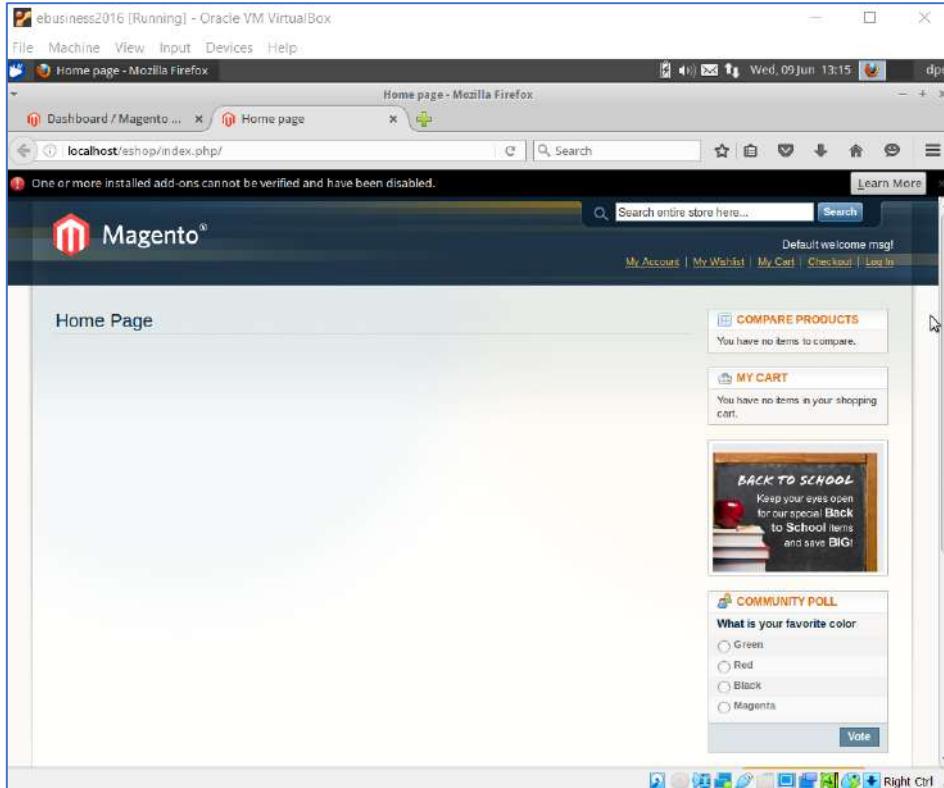

Μέσα από το image, αν ανοιχθεί κάποιος browser και πληκτρολογήσει κανείς <http://localhost/eshop/index.php/admin>, μεταφέρεται στο admin panel (username και password: admin και admin20 αντίστοιχα). Το e-shop φαίνεται στο <http://localhost/eshop/index.php>.

Οι οδηγίες για την εκτέλεση της άσκησης μπορούν να χωριστούν σε 6 κατηγορίες. Οδηγίες για θέματα σχεδίασης του e-shop, για την δημιουργία καταλόγου και προϊόντων, για θέματα που άπτονται των πληρωμών και των αποστολών, για ρυθμίσεις Community και δημιουργία Google Sitemap, για την προσομοίωση χρηστών/πελατών και τέλος για την καθημερινή διαχείριση του e-shop (moderation, παραγγελίες κτλ.).

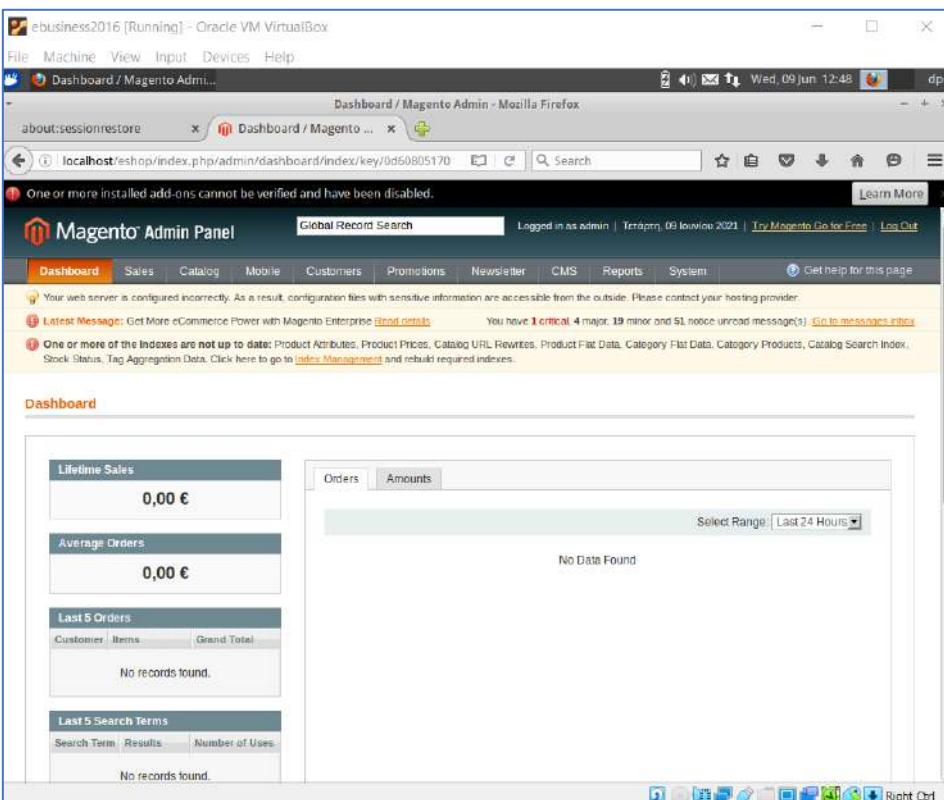

Σύμφωνα με τα παραπάνω, σκοπός της άσκησης είναι η δημιουργία ενός e-shop το οποίο θα εμπορεύεται “Hoverboards”.

Η αρχική εικόνα του e-shop πριν από οποιαδήποτε μετατροπή, είναι η ακόλουθη.

Για την διεύθυνση <http://localhost/eshop/index.php>:

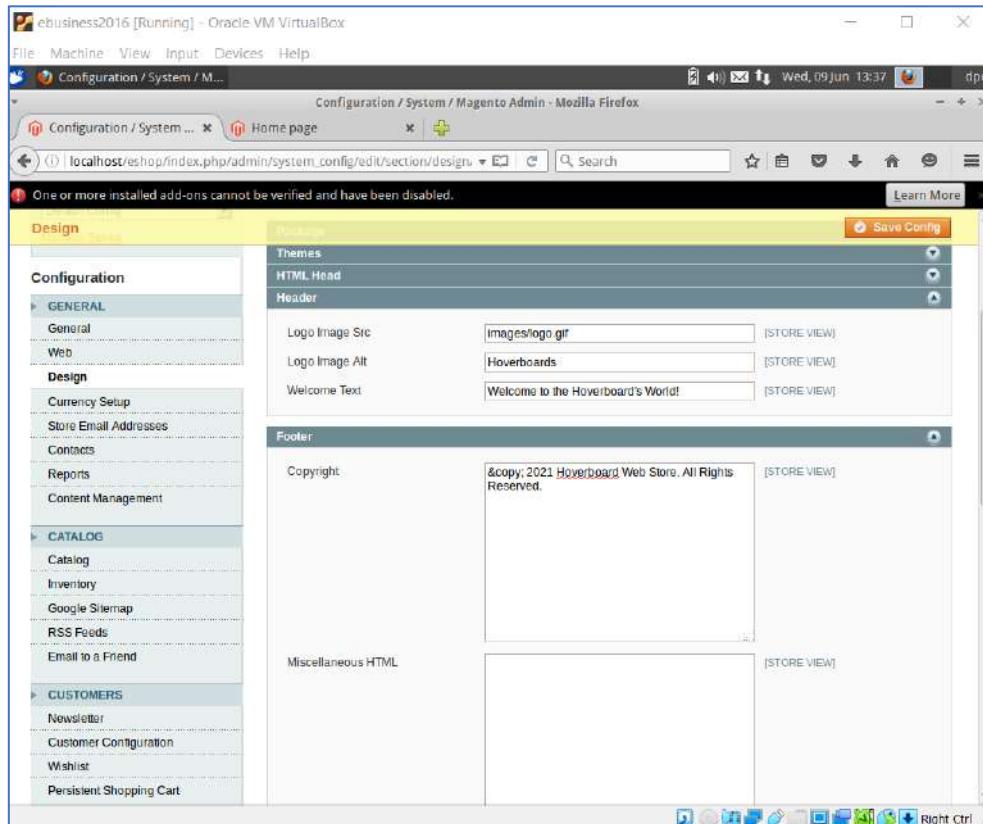

Για την διεύθυνση <http://localhost/eshop/index.php/admin>:

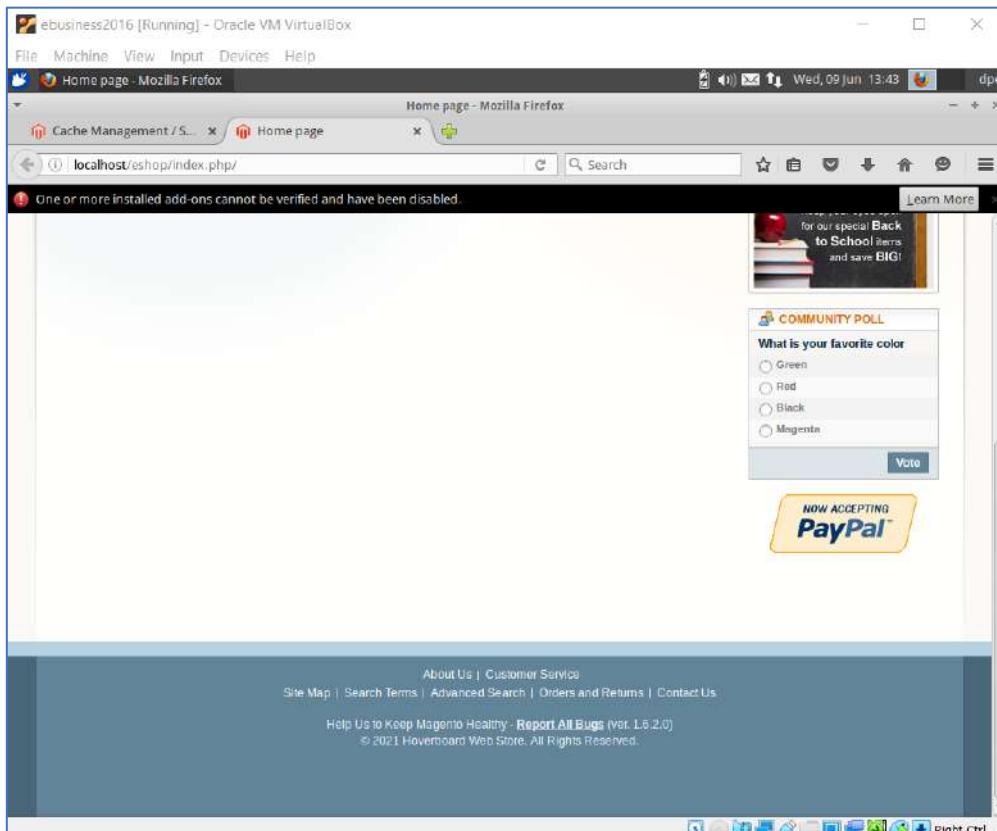

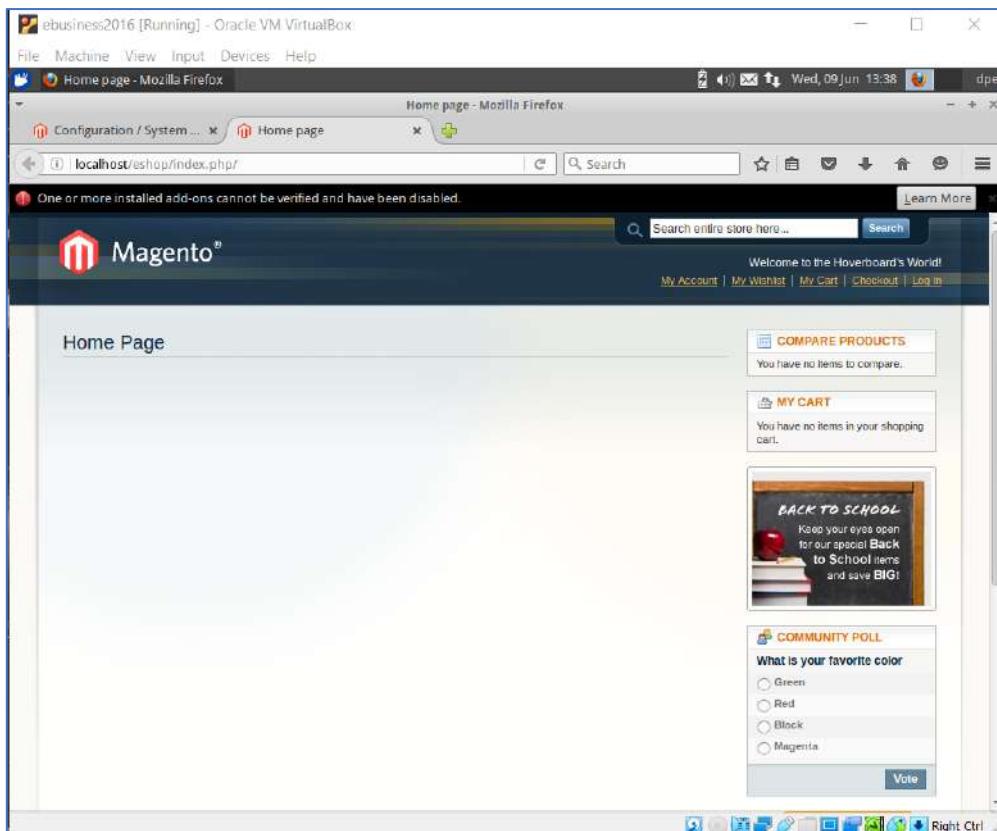

Θέματα Design του e-shop

1. Να γίνει αλλαγή του *default welcome text* που βρίσκεται στον *header* και το *Copyright text* που βρίσκεται στο *footer* σε όλα της επιλογής του καθενός.

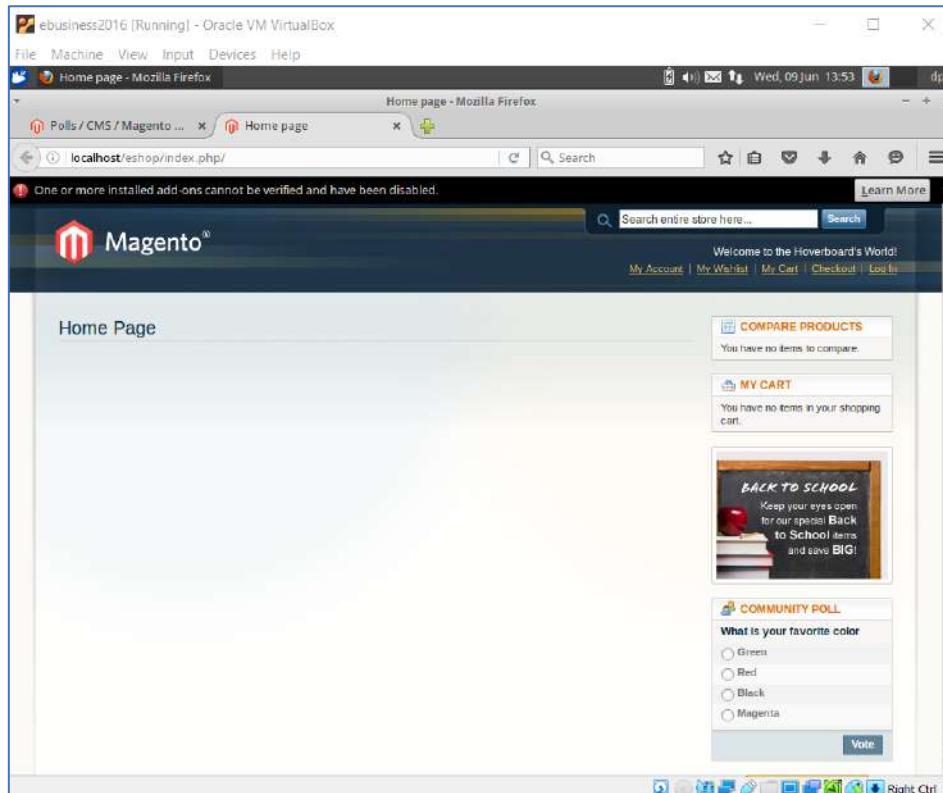

Αυτό μπορεί να γίνει από το System → Configuration και από την αριστερή στήλη επιλέγεται το Design και γίνεται αλλαγή του header και footer και Save Config. Σε περίπτωση που κάποια ρύθμιση δεν εμφανιστεί, από το System → Cache Management επιλέγεται το Flush Magento Cache. Έτσι, η εικόνα θα είναι η ακόλουθη.

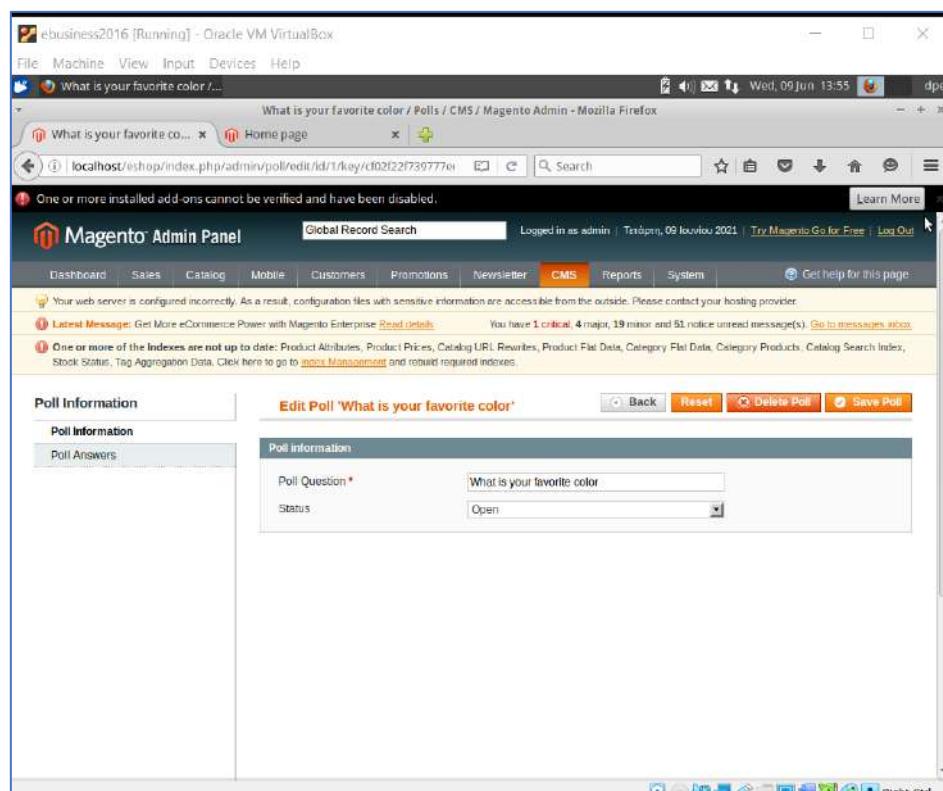

2. Διαγραφή των poll της default εγκατάστασης, ώστε να μην φαίνεται στο e-shop.

Αρχικά, φαίνεται το εξής:

Έπειτα, από το CMS → Polls, και επιλέγεται το Delete Poll.

Οπότε η εικόνα θα είναι η ακόλουθη πλέον.

The screenshot shows the Magento Admin Panel interface. At the top, there are several status messages: "Your web server is configured incorrectly. As a result, configuration files with sensitive information are accessible from the outside. Please contact your hosting provider.", "Latest Message: Get More eCommerce Power with Magento Enterprise Read details", and "One or more of the indexes are not up to date: Product Attributes, Product Prices, Catalog URL Rewrites, Product Flat Data, Category Flat Data, Category Products, Catalog Search Index, Stock Status, Tag Aggregation Data. Click here to go to Index Management and rebuild required indexes." Below these, a green message box says "The poll has been deleted." The main area is titled "Poll Manager" and contains a table with columns: ID, Poll Question, Number of Responses, Date Posted, Date Closed, and Status. A search bar at the top right of the table allows filtering by various criteria like From, To, and Date.

The screenshot shows the Magento Home Page. The header includes the Magento logo and navigation links: "Home Page", "My Account", "My Wishlist", "My Cart", "Checkout", and "Log In". A search bar is located at the top right. On the left, there's a "Home Page" section. On the right, there are two boxes: "COMPARE PRODUCTS" (with a note: "You have no items to compare.") and "MY CART" (with a note: "You have no items in your shopping cart"). Below these is a promotional banner for "BACK TO SCHOOL" featuring an apple and books. At the bottom right is a "NOW ACCEPTING PayPal" button.

Εναλλακτικά, αυτή η διαδικασία μπορεί να γίνει και ως εξής:

System → Configuration → Advanced → Advanced → Disable Module Outputs → Mage_Poll → Save Config

The screenshot shows a Mozilla Firefox browser window running on a virtual machine named 'ebusiness2016'. The URL is 'localhost/eshop/index.php/admin/system_config/edit/section/advanced'. The configuration page is titled 'Configuration / System / Mage_Poll'. A message at the top states 'One or more installed add-ons cannot be verified and have been disabled.' The 'Advanced' tab is selected. In the 'Mage_Poll' section, the dropdown menu for 'Mage_Poll' is set to 'Disable'. Other modules listed include Mage_ImportExport, Mage_Index, Mage_Install, Mage_Log, Mage_Media, Mage_Newsletter, Mage_Page, Mage_PageCache, Mage_Paygate, Mage_Payment, Mage_Paypal, Mage_PaypalUk, Mage_Persistent, Mage_Rating, Mage_Report, Mage_Review, Mage_Rss, Mage_Rule, and Mage_Sales. A 'Save Config' button is visible at the bottom right.

3. Σχεδιασμός της Home Page που είναι άδεια, προσθέτοντας εικόνες και κείμενο. Μπορεί να περιέχει περιγραφή του e-shop, τα ονόματά σας κτλ. (Tip: Μπορεί να χρησιμοποιηθεί κάποιο free WYSIWYG HTML editor (π.χ.: http://www.webdevelopersnotes.com/resources/free_wysiwyg_html_editors.php3)

Αυτή η διαδικασία μπορεί να γίνει από το CMS → Pages που αρχικά φαίνεται έτσι:

Title	URL Key	Layout	Status	Date Created	Last Modified	Action

Αρχικά, επιλέγεται η Home Page για να γίνουν οι μετατροπές.

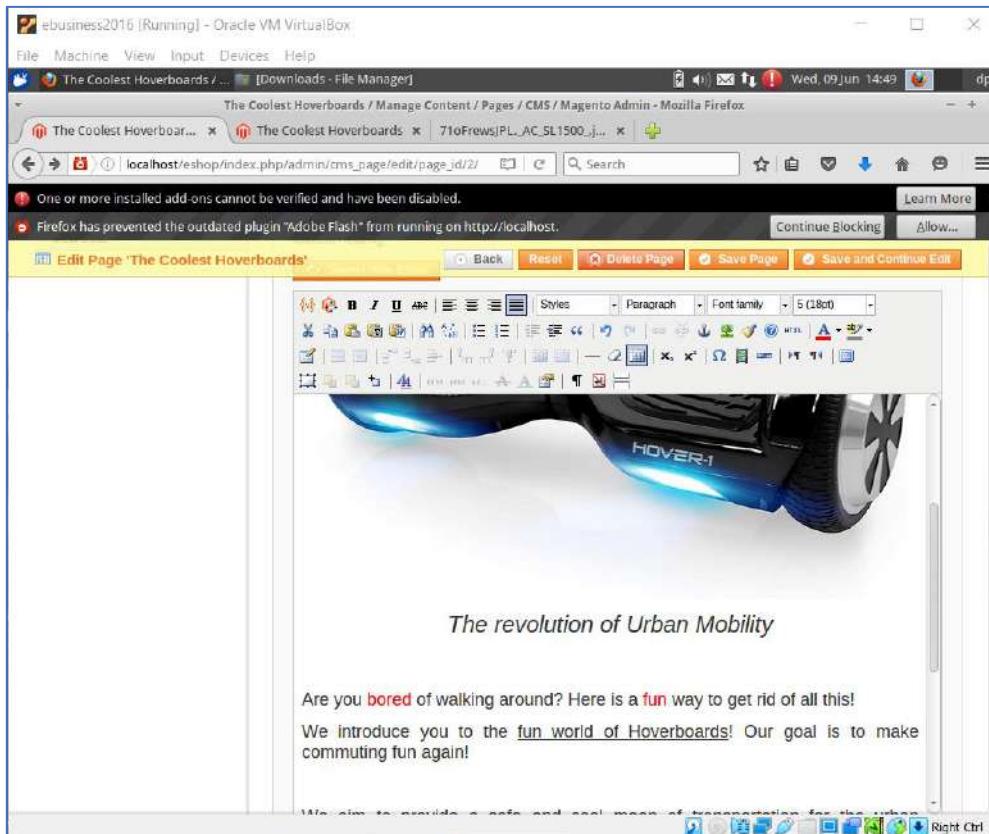

Συγκεκριμένα, για τον τίτλο, από το Page Information γίνεται η αλλαγή και έπειτα Save Page.

Έτσι, θα φαίνεται ως εξής:

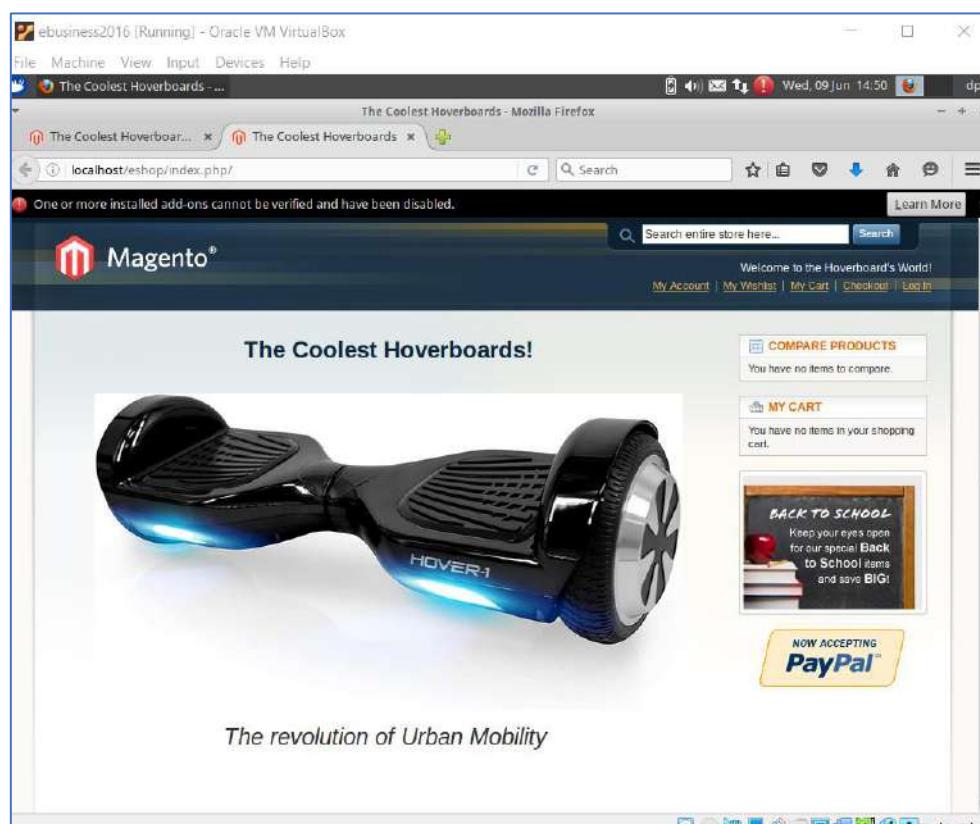

The screenshot shows the Magento Admin Panel interface. The top navigation bar includes 'File', 'Machine', 'View', 'Input', 'Devices', 'Help', and the current page 'The Coolest Hoverboards / ...'. The title bar of the browser window also displays 'The Coolest Hoverboards / Manage Content / Pages / CMS / Magento Admin - Mozilla Firefox'. The main content area is titled 'Page Information' and shows the details for the page 'The Coolest Hoverboards'. The form fields include 'Page Title *' (set to 'The Coolest Hoverboards'), 'URL Key *' (set to 'home'), and 'Status *' (set to 'Enabled'). Below the form are several status messages: 'Your web server is configured incorrectly. As a result, configuration files with sensitive information are accessible from the outside. Please contact your hosting provider.', 'Latest Message: Get More eCommerce Power with Magento Enterprise [Read details](#). You have 1 critical, 4 major, 19 minor and 51 notice unread message(s). Click here to go to [Index Management](#) and rebuild required indexes.' At the bottom right of the panel, there are buttons for 'Back', 'Reset', 'Delete Page', 'Save Page', and 'Save and Continue Edit'.

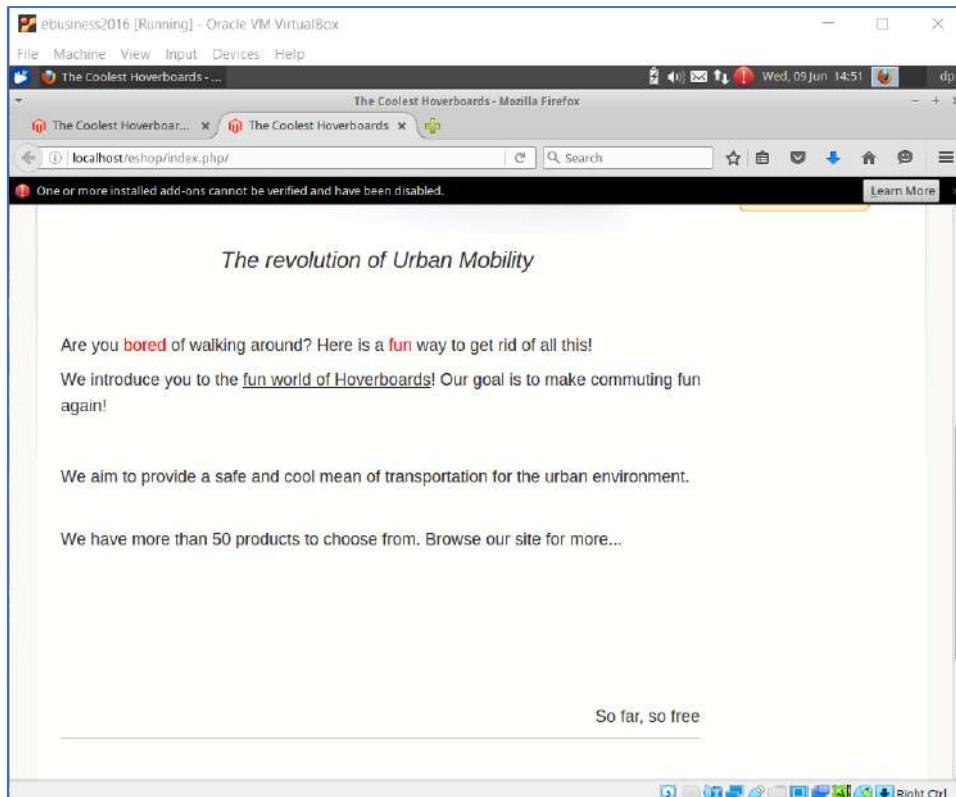

The screenshot shows the Magento storefront. The top navigation bar includes 'File', 'Machine', 'View', 'Input', 'Devices', 'Help', and the current page 'The Coolest Hoverboards - Mozilla Firefox'. The title bar of the browser window also displays 'The Coolest Hoverboards - Magento Admin - Mozilla Firefox'. The main content area is titled 'Home Page'. It features a search bar with 'Search entire store here...' and a 'Search' button. On the right side, there are two boxes: 'COMPARE PRODUCTS' (with the message 'You have no items to compare.') and 'MY CART' (with the message 'You have no items in your shopping cart.'). Below these boxes is a promotional banner for 'BACK TO SCHOOL' with the text 'Keep your eyes open for our special Back to School items and save BIG!'. At the bottom right, there is a 'NOW ACCEPTING PayPal' logo.

Έπειτα, στο Content γίνεται η προσθήκη του περιεχομένου είναι επιθυμητό να φαίνεται στην αρχική σελίδα του e-shop.

Οπότε, το Home Page θα είναι όπως φαίνεται παρακάτω.

Έχετε αλλάξει το Design, ώστε να φαίνεται μόνο το Home Page χωρίς το sidebar (1 column layout) όπως φαίνεται στο στιγμιότυπο.

Οπότε η αρχική οθόνη θα είναι κάπως έτσι:

Δημιουργία καταλόγου και προϊόντων

4. Δημιουργία τουλάχιστον 2 κατηγοριών προϊόντων* (π.χ. τύπος προϊόντων, αξεσουάρ, ανταλλακτικά κλπ) και τα αντίστοιχα attributes των προϊόντων της κάθε κατηγορίας (π.χ. υλικό κατασκευής, χώρα προέλευσης κλπ). Κάθε κατηγορία προϊόντων πρέπει να περιέχει τουλάχιστον 3 attributes. Να ομαδοποιηθούν τα attributes σε attribute sets.

a. * ΠΡΟΣΟΧΗ: Δημιουργία των κατηγοριών σαν υποκατηγορίες του Root Catalog, γιατί διαφορετικά ενδέχεται να έχετε πρόβλημα στο navigation menu.

b. Σημείωση: Μπορεί να χρειαστεί refresh το inventory στο cache management (System → Cache Management).

Αρχικά, επιλέγεται Catalog → Manage Categories

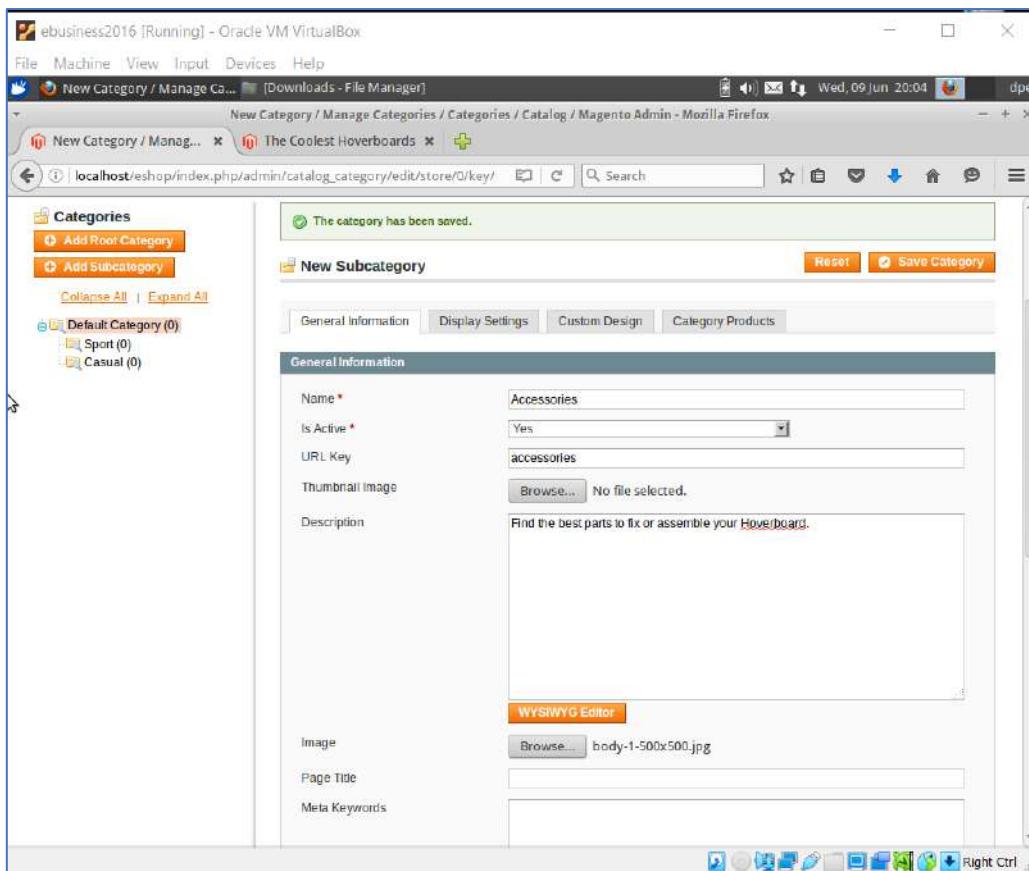

The screenshot shows the Magento Admin Panel interface. The top navigation bar includes 'File', 'Machine', 'View', 'Input', 'Devices', and 'Help'. Below that is a toolbar with icons for 'New Category / Manage Ca...', 'The Coolest Hoverboards', and a search bar. The main header says 'New Category / Manage Categories / Categories / Catalog / Magento Admin - Mozilla Firefox'. The left sidebar has 'Categories' with 'Add Root Category' and 'Add Subcategory' buttons, and links for 'Collapse All', 'Expand All', and 'Default Category (0)'. The right panel is titled 'New Root Category' with tabs for 'General Information', 'Display Settings', 'Custom Design', and 'Category Products'. Under 'General Information', there are fields for 'Name' (with a red asterisk), 'Is Active' (set to 'No'), 'URL Key', 'Thumbnail Image' (with a 'Browse...' button), and 'Description'. At the bottom right of the panel are 'Reset' and 'Save Category' buttons. The status bar at the bottom shows various system icons.

Μετά, δημιουργούνται τα Subcategories και κάθε φορά γίνεται Save Category.

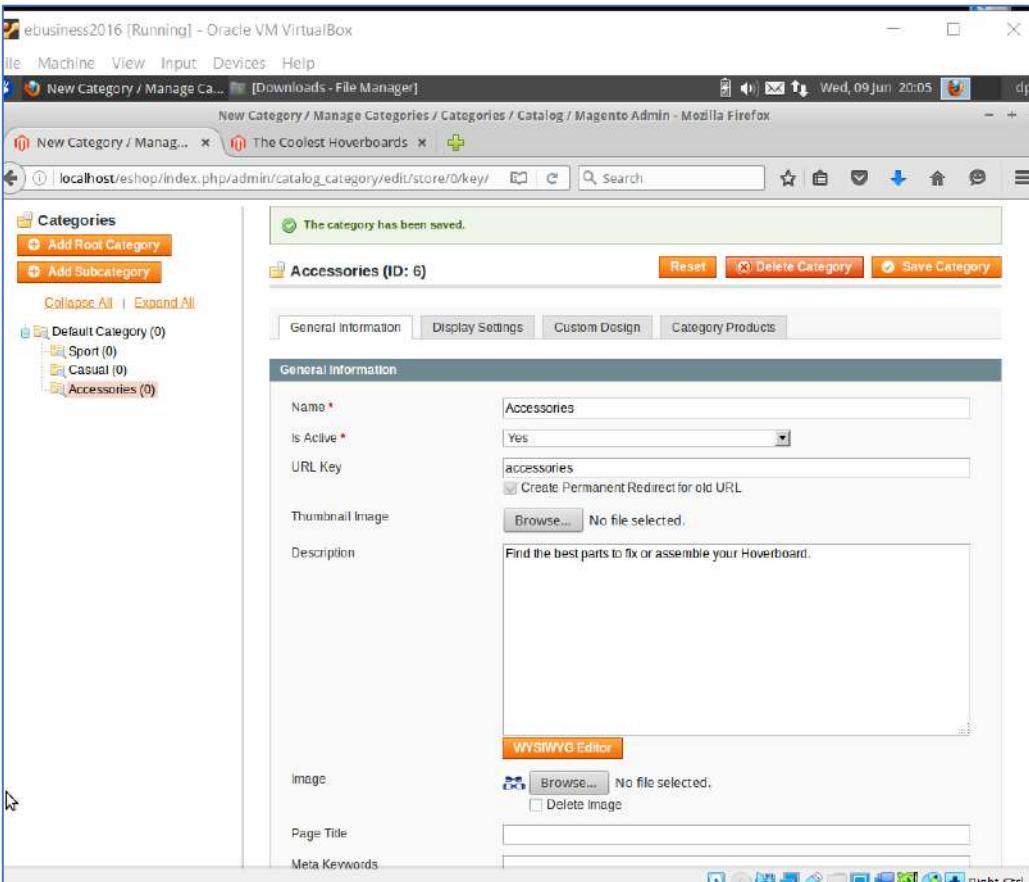

To Web Store διαθέτει Sport, Casual & Accessories.

The screenshot shows the Magento Admin Panel interface. The top navigation bar includes 'File', 'Machine', 'View', 'Input', 'Devices', and 'Help'. The main menu has 'New Category / Manage Ca...' selected. The sub-menu 'Categories / Catalog / Magento Admin - Mozilla Firefox' is also visible. The browser address bar shows 'localhost/eshop/index.php/admin/catalog_category/edit/store/0/key/'. The page title is 'New Category / Manage Categories / Categories / Catalog / Magento Admin - Mozilla Firefox'. The left sidebar under 'Categories' has buttons for 'Add Root Category' and 'Add Subcategory', and links for 'Collapse All', 'Expand All', and 'Default Category (0)'. The right panel displays a success message: 'The category has been deleted.' Below this, a 'New Subcategory' form is shown with tabs for 'General Information', 'Display Settings', 'Custom Design', and 'Category Products'. The 'General Information' tab is active, showing fields for 'Name *' (Sport), 'Is Active *' (Yes), 'URL Key' (sport), 'Thumbnail Image' (Browse...), and 'Description' (The most extreme Hoverboards for the off road activities.). Buttons for 'Reset' and 'Save Category' are at the bottom right of the form.

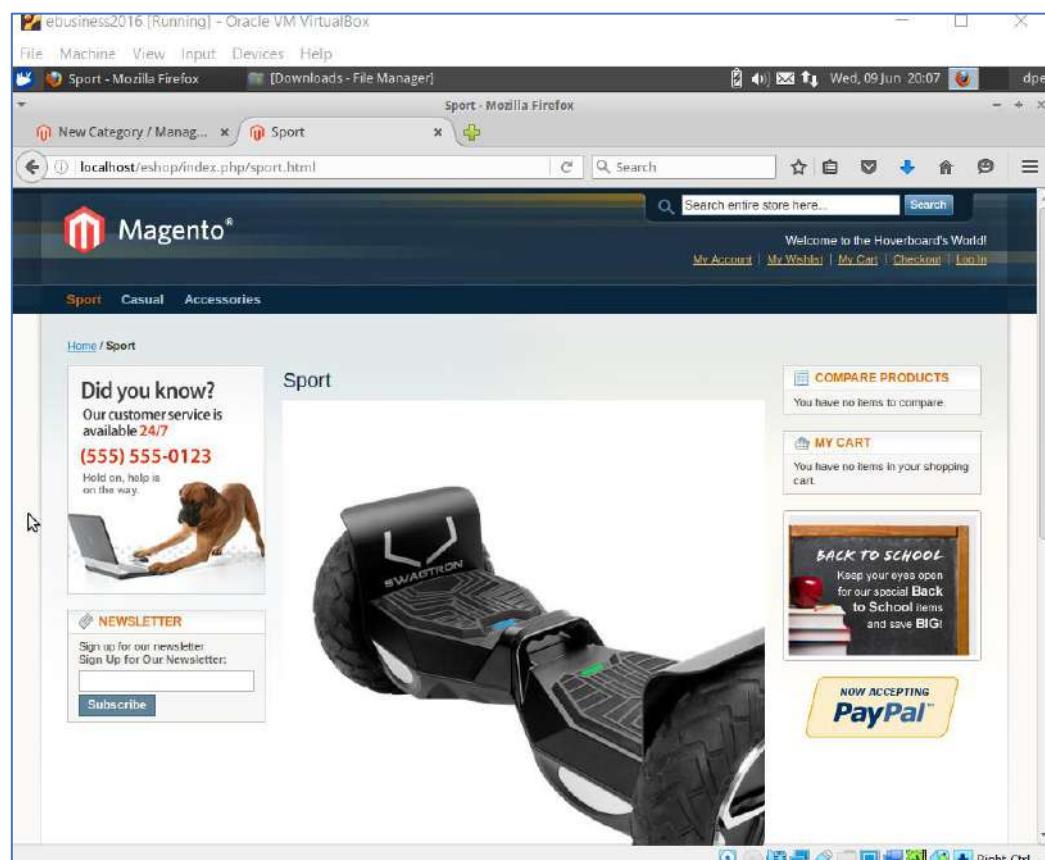

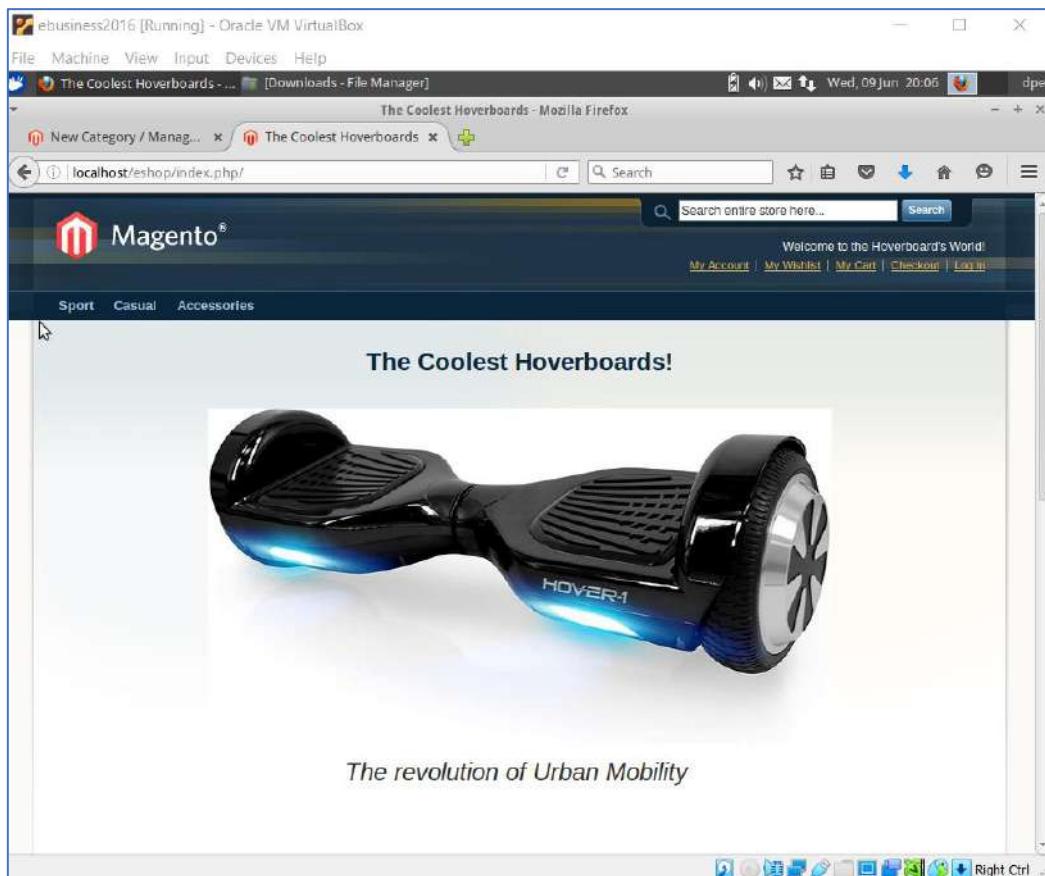

This screenshot is from the same session as the previous one, showing the continuation of category creation. The interface is identical, with the 'New Category / Manage Categories / Categories / Catalog / Magento Admin - Mozilla Firefox' page. The left sidebar shows the 'Sport' category has been deleted. The right panel shows a success message: 'The category has been saved.' A new 'New Subcategory' form is displayed with the 'General Information' tab selected. The fields are filled with 'Name *' (Casual), 'Is Active *' (Yes), 'URL Key' (casual), 'Thumbnail Image' (Browse...), and 'Description' (The new way to commute in ordinary life.). Buttons for 'Reset' and 'Save Category' are present.

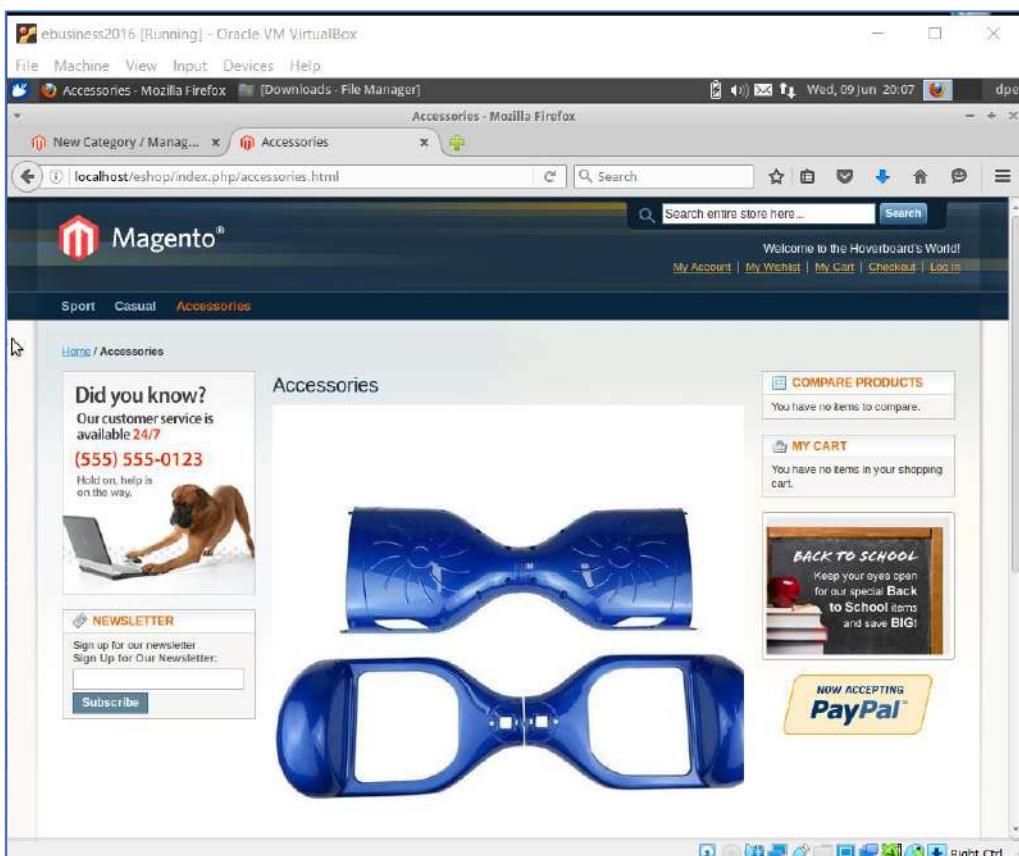

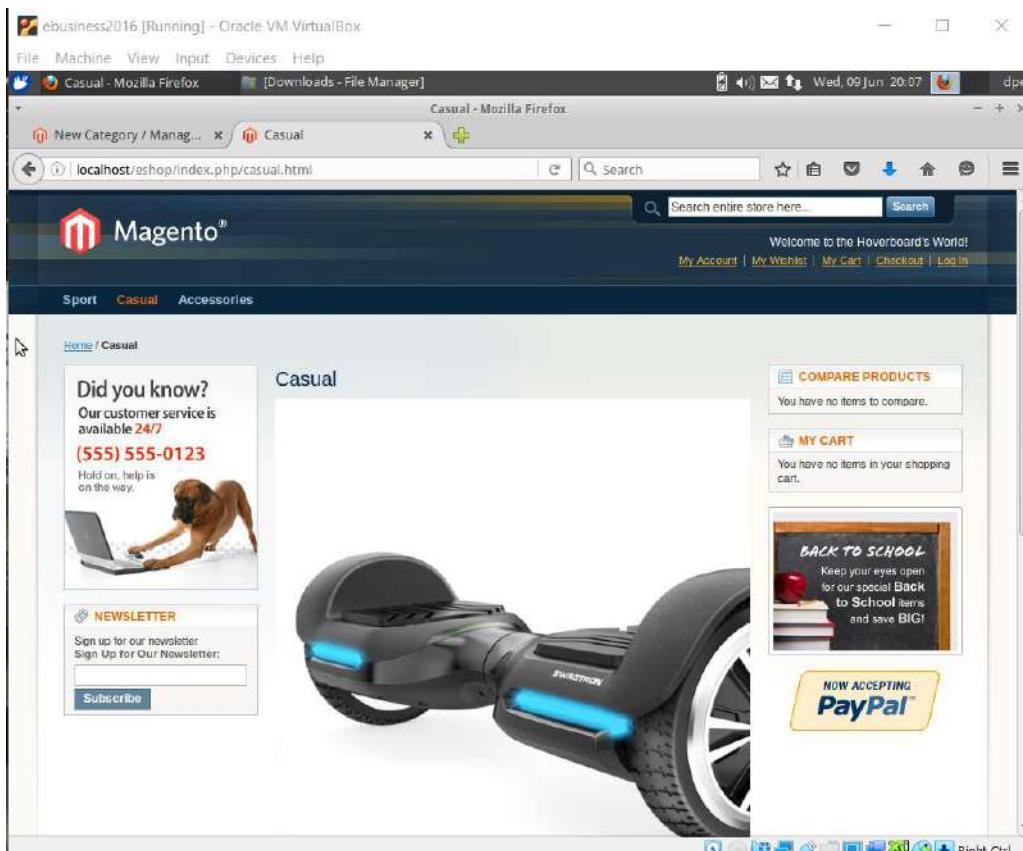

Οπότε, συνοπτικά οι κατηγορίες φαίνονται στα αριστερά της εικόνας.

Kai στο Front-end:

Σημείωση: Σε περίπτωση που δεν εμφανίζονται, ελέγχεται αν το Is Active είναι Yes.

Έπειτα, δημιουργούνται τα attributes και ομαδοποιούνται σε attribute sets.

Επιλέγεται Catalog → Attributes → Manage Attributes και η δημιουργία γίνεται επιλέγοντας Add New Attribute.

Αρχικά, φαίνεται η παρακάτω εικόνα.

The screenshot shows the Magento Admin Panel interface. At the top, there's a navigation bar with links like Dashboard, Sales, Catalog, Mobile, Customers, Promotions, Newsletter, CMS, Reports, System, and Get help for this page. Below the navigation is a message bar with a warning about configuration files being accessible from outside. The main area is titled "Manage Attributes" and displays a grid of product attributes. The columns include Attribute Code, Attribute Label, Required, System, Visible, Scope, Searchable, Use in Layered Navigation, and Comparable. The grid contains several rows of attribute data, such as color, cost, country_of_manufacture, custom_design, etc. At the bottom of the grid, there are buttons for Reset Filter and Search.

Ένα παράδειγμα από Back-end:

The screenshot shows the Magento Admin interface for managing products. The top navigation bar includes File, Machine, View, Input, Devices, Help, and a date/time indicator (Wed, 09 Jun 22:59). Below the bar, there's a toolbar with icons for Back, Reset, Delete, Duplicate, Save, and Save and Continue Edit. The main content area has tabs for Dashboard, Sales, Catalog (which is selected), Mobile, Customers, Promotions, Newsletter, CMS, Reports, and System. A message bar at the top states: "One or more of the Cache Types are invalidated: Blocks HTML output. Click here to go to Cache Management and refresh cache types." Another message says: "Your web server is configured incorrectly. As a result, configuration files with sensitive information are accessible from the outside. Please contact your hosting provider." A third message is about latest messages. On the left, a sidebar titled "Product Information" lists various product-related sections: General, Prices, Meta Information, Images, Recurring Profile, Design, Gift Options, Sport attributes, Inventory, Categories, Related Products (which is expanded to show sub-options like Up-sells, Cross-sells, Product Reviews, Product Tags, Customers Tagged Product, and Custom Options), and a "Related Products" section which is currently active. The main right-hand panel displays a grid of products under the heading "GT 800 (Sport)". The grid columns are: ID, Name, Type, Attrib. Set Name, Status, Visibility, SKU, Price, and Position. There are 8 records found. The first few rows show products like GT 900 Charger, MX 750, GT 800 Breaks, MX 750 Wheels, MX 550 Casual Product, MX 350 Casual Product, GT 900 Sport Product, and GT 700 Sport Product. The "Related Products" section in the sidebar is highlighted.

8. Καθορισμός της διεύθυνσης του e-shop από την οποία θα ξεκινάνε τα shipments των προϊόντων.

Αυτό γίνεται από System → Configuration → Shipping Settings ώστε να καθοριστεί η διεύθυνση του e-shop από την οποία θα ξεκινάνε τα shipments των προϊόντων. Ως έδρα έχει οριστεί το Ε.Μ.Π.

The screenshot shows the Magento Admin Panel interface. The top navigation bar includes links for Configuration, System, and Downloads - File Manager. The main content area is titled "Shipping Settings". On the left, there's a sidebar with sections for Configuration (GENERAL, CATALOG, etc.) and Content Management. The right side contains the "Origin" configuration form with the following data:

Field	Value
Country	Ελλάδα
Region/State	Αττική
ZIP/Postal Code	15780
City	Athens
Street Address	9, Iroon Polytechniou St
Street Address Line 2	

A green success message at the top right says "The configuration has been saved." There are also some system messages at the top of the page.

9. Δημιουργία κατάλληλων tax rates για πωλήσεις στην Ελλάδα (ΦΠΑ 23%) και την Κύπρο (ΦΠΑ 18%) και των απαραίτητων ρυθμίσεων ώστε α) ο default προορισμός για υπολογισμό φόρου να είναι η Ελλάδα και β) οι τιμές των προϊόντων στο e-shop να εμφανίζονται τόσο με όσο και χωρίς τον φόρο. Να θεωρηθεί ότι οι τιμές που μπήκαν όταν δημιουργήθηκαν τα προϊόντα δεν συμπεριλαμβάνουν φόρο και ότι όλα τα προϊόντα είναι taxable με το ίδιο rate.

Επιλέγεται Sales → Tax → Manage Tax Zones & Rates ώστε να δημιουργηθούν τα tax rates για πωλήσεις στην Ελλάδα (ΦΠΑ 23%) και στην Κύπρο (ΦΠΑ 18%).

Αρχικά, φαίνονται κάπως έτσι.
